CUTTING DECK PARK

DECK PARK 110 COMBI PRO EL

Deck Park 110 Combi Pro

A front-mounted Pro cutting deck with three blades for Stiga Park.

110 Combi Pro is front-mounted for better overview and easier accessibility. Three blades are free rotating with Multiclip function to cut the grass finely for fertilizing. The deck can without any tools be changed into a rear-discharge deck. The deck cuts with excellent result.

The deck is extremely sturdy with a solid frame around as protection. The deck adjusts up and down, with an electric control while the frame stays in the same position. Equipped with professional bearing boxes. Pivot wheels make steering in sharp bends easier. The deck can be raised and angled into a cleaning position without removing the belt.

Fits Park from model year 2000. The Front mower must be equipped with frame weights when using the cutting deck to comply with safety regulations.
